

LHSC's Day School and Preschool Programs offer children of varying abilities quality care and education in a safe, friendly environment

Our Mission

Lexington Hearing & Speech Center teaches children with hearing, speech and language impairments to listen and talk by providing them with high quality educational, therapeutic, and family support services.

LHSC's Day School:

Nursery I & II

Nursery I provides newborn infant care in a friendly, loving environment. The small room ratio of 4 to 1 allows for individualized and consistent care for babies and support for parents.

Nursery II is the perfect transition for young toddlers as an infant begins crawling and/or walking. The 4 to 1 ratio means plenty of support during this busy time of learning and growing.

LHSC Day School:

Toddler I & II

Toddler III

Toddler I allows 16-26 month olds to begin a more structured day. Many activities are planned to keep busy toddlers engaged in appropriate play while they learn new vocabulary and language skills. 5 to 1 ratio.

Toddler II focuses on the changing needs of a toddler. Independence is an important step for a 2-year-old. The 5 to 1 ratio provides an environment that enables your children to grow and become self sufficient.

Toddler III combines toddler play with beginner pre-school activities for 2 & 3 year-olds. 5 to 1 ratio.

LHSC Preschool, Pre-K & Kindergarten:

Hearing Impaired Class

Language Stimulation Class

Community Class

Kindergarten Class

LHSC's Preschool, Pre-K & Kindergarten Program is a state licensed, state approved center, offering children of all abilities a safe environment to learn and grow. Caring, committed teachers meet each student where they are in order to achieve their individual education and communication goals.

Language enriched classroom activities, necessary clinical services and parental involvement all come together to provide a positive and productive learning experience.

Our goal is to ensure that LHSC's students have the social and communication skills they need to be successful as they prepare to begin kindergarten and first-grade with their peers.
