

TELE-INTERVENTION

LISTENING AND SPOKEN
LANGUAGE THERAPY
PROVIDED BY

Lexington Hearing & Speech Center

DETAILS

- Tele-intervention sessions offered to children ages 0-3
- Families are coached on using listening, speech and language stimulation strategies during daily routines
- Lesson plans are developed and sent to families with goals and materials needed for each session
- Activities are developed to use in the home environment

WHY TELE-INTERVENTION?

Many factors can prevent families from attending weekly therapy sessions. Tele-intervention provides a way for children to keep the consistency of weekly sessions. Tele-intervention provides a home environment for children and families to practice listening and spoken language skills
